Bench fee

A separate bench fee, to cover the use of station facilities, is paid by visitors not staying at ANS and not related to SITES. This fee is SEK 80 per day.

Labs, offices and storage

There is no additional charge for the use of labs and offices for accepted projects. The same goes for storing of equipment, instruments or samples, as long as a research project is ongoing.

Car rental

The price per kilometre is SEK 5 (including fuel), plus a daily fee of SEK 100. For the electric car, the price per kilometre is SEK 3 (including charging), plus a daily fee of SEK 100.

Transportation by boat

Within the Abisko Basin of Lake Torneträsk, a single trip across the lake costs SEK 600, (max. 6 people). Boat transportation is always upon request and the price depends on the destination. Please contact us for a price quote.

Snowmobile

Technician cost + snowmobile cost. This is always upon request and we need to know number of people, destination and purpose. Example for a trip to the other side of the lake is SEK 600. Please contact us for a price quote.

Technical services

When service provided by a technician is considered minor, there is no additional charge. However, if the support takes more than a couple of hours, the cost is SEK 2700 per day per technician. This is also upon request, please contact us for a price quote.

Catering

If you need catering for a conference, course etc., you must arrange this yourself (there are several caterers available in the Abisko area). Catering will be invoiced directly from the caterer to the organiser.

Payment

We do not accept individual payments; invoices go directly to the project Principal Investigator. The invoicing principle of the research station is "one project – one PI – one season – one invoice". This means that the PI of a given research project, or organiser of a conference or course, will receive one invoice covering all the costs related to that project for the particular season/year. The invoice will be processed and sent out after the project has been completed, within a given year. For projects taking place during the peak summer field season, invoices will be sent out in the autumn. The invoice will specify participants, accommodation, duration, and any extra services agreed upon and provided by the station. Invoices are sent out electronically or via postal service. In special cases, credit card payment may be possible, but this needs to be arranged well in-advance. Please contact staff well in advance of your stay.
